

REMARKS/ARGUMENTS

For the record, Applicants are providing to the Examiner copies of Patent Assignment Abstract of Title for all the related parent applications and issued patents for this case (as shown in the first paragraph of the application). The submitted documents verify that the patents and applications along with Applicants' application are presently owned by NanoProducts Corporation and have been co-owned throughout their lives.

Applicants believe that once the ownership of the related parent applications and issued patents is fully considered by the Examiner all §102 and §103 rejections of the claims will be found to be addressed and will be withdrawn.

Conclusion

Applicants respectfully request that a timely Notice of Allowance be issued in this case.

Respectfully submitted,

2/08/06
